

AIRTOWER NETWORKS CONNECTIVITY OVERVIEW

Airtower delivers **turnkey wireless infrastructure** that keeps buildings connected, compliant, and future-ready. From cellular **DAS** and enterprise-grade **Wi-Fi** to public safety **ERCES**, our systems ensure reliable coverage across every area of your property. We design, build, and manage networks that support tenants, staff, visitors, and first responders.

WHAT WE PROVIDE

CELLULAR COVERAGE FOR EVERY CARRIER

Multi-carrier DAS that brings reliable AT&T, Verizon, and T-Mobile coverage indoors for voice, text, and high-speed data.

ENTERPRISE-GRADE WI-FI FOR ALL USERS

High-capacity Wi-Fi 6 and Wi-Fi 6E networks built for tenants, staff, visitors, and smart building systems.

CODE-COMPLIANT PUBLIC SAFETY ERCES

Public safety radio systems that meet AHJ requirements and deliver reliable connectivity for firefighters, police, and EMTs.

WHY IT MATTERS

Strong, Consistent Connectivity Indoors

Reliable cellular and Wi-Fi coverage supports productivity, communication, and day-to-day operations throughout the building.

Supports Safety And Compliance

Public safety systems ensure first responders stay connected and buildings meet local code requirements.

Future-Ready Infrastructure

Scalable design supports 5G, expanding device counts, and the growing demands of modern smart buildings.

Reduces IT And Operational Burden

Airtower handles design, upgrades, monitoring, and maintenance so teams can focus on core responsibilities.

AIRTOWER DIFFERENCE

- ✓ Multi-Carrier Expertise
- ✓ Secure Enterprise Wi-Fi
- ✓ 200M+ Sq Ft Deployed
- ✓ One Provider For All Wireless Infrastructure
